TIPU SULTAN

AI-Driven & Data-Driven Growth Architect | High-Ticket Performance Marketer

Riyadh, Kingdom of Saudi Arabia • Portfolio: sultantipu199.github.io/sultan-growth • WhatsApp & Email available on request

EXECUTIVE SUMMARY

Performance marketing architect specialising in algorithm-led paid acquisition across Meta, Google, and YouTube for high-ticket DTC, SaaS, consulting, and Gulf-region e-commerce brands. Combines Meta Advantage+ / Google Smart Bidding systems, server-side CAPI signal engineering, and a 3:2:2 dynamic creative sandbox to convert erratic ad spend into predictable, scalable revenue. All results below are screenshot-verified across a 59-item evidence vault.

VERIFIED PERFORMANCE HIGHLIGHTS

$188K+	$869K+	4.6x	56+
Managed Ad Spend	Tracked Revenue	Blended ROAS	Verified Proofs

CORE COMPETENCIES

Predictive AI Bidding: Meta Advantage+ Shopping Campaigns (ASC); Google Performance Max; cost-cap bidding; dynamic asset weighting; first-party exclusion lists

Signal Engineering: Server-side CAPI (EMQ 9.0+); Conversions API Gateway; SHA-256 parameter hashing; event deduplication; iOS 14+ recovery (up to 35% under-reported conversions)

Creative Systems: 3:2:2 dynamic creative sandbox (3 hooks / 2 visuals / 2 angles); 48-angle hook matrix; thumb-stop creative for feed disruption and objection handling

Unit Economics: Blended MER; cohort LTV modelling; day-0 CAC break-even; 4.2:1 LTV:CAC architecture; bank-reconciliation attribution

GCC Market Specialisation: Tabby & Tamara BNPL (+44% mobile conversion); WhatsApp COD confirmation (refusal reduced to 7%); native Gulf-dialect copy and creative

Search Arbitrage: 86.4% impression share systems; negative-keyword hygiene; cross-channel YouTube bumper retargeting

PROFESSIONAL EXPERIENCE

Independent Growth Architect / High-Ticket Performance Marketer

Remote & Riyadh, KSA · serving DTC, SaaS, consulting and GCC e-commerce clients

- Architected AI-driven Meta Advantage+ & CAPI acquisition systems scaled to 6.4x peak ROAS after eliminating manual-targeting bid spikes and post-iOS14 signal loss.
- Rebuilt a DTC cycling & sports-gear account from 1.2x to 5.9x peak ROAS by replacing an absent acquisition architecture with the creative sandbox + CAPI stack.
- Engineered a B2B enterprise SaaS pipeline reducing cost per Sales-Qualified Lead to $31 — a 64% reduction — via intent-matched search architecture.
- Delivered a direct-response Meta omnichannel system at a verified 4.6x ROAS, resolving scale-induced CPA doubling and audience fatigue.

- Landed high-ticket consulting leads at $4.20 per qualified lead by fixing decision-maker targeting and no-show rates.
- Built conversational Messenger/WhatsApp commerce funnels closing at an 82% qualified rate for consultation-dependent buyers.
- Launched YouTube Action Ads funnels at $0.012 cost per view with 3.8x ROI after restructuring the first-five-second hook.
- Scaled a multi-SKU dynamic product catalog (DPA) to 4.8x blended ROAS, ending single-product frequency fatigue.
- Generated 1.2M+ verified organic-and-paid hybrid reach with follower growth for a brand with weak social proof.
- Scaled Saudi/GCC e-commerce accounts past SAR 1.4M in tracked revenue through BNPL integration and COD automation.

Proprietary Growth Playbooks (Authored)

Applied across client accounts

- Auction Game Theory (Andromeda scaling): 4.6x–6.4x ROAS via marginal-ROAS pocket prediction across 3B+ user signals.
- Signal Resilience Protocol: triple attribution with 9.4/10 EMQ scoring and zero cookie dependence.
- Creative Velocity Engine: sub-$15 cold CPA through disciplined 3:2:2 testing before budget graduation.
- 60-Day LTV Engine: 4.2:1 LTV:CAC via replenishment triggers at day 45 and tiered bundle AOV lifts (+64%).
- Google Search Synergy: 85%+ absolute top-of-page rank on buying queries with PMax negative shield.

TOOLBOX

Meta Ads Manager / Advantage+ ASC • Google Ads / Performance Max • Server-Side CAPI Gateway • Shopify & DTC stacks • GA / blended MER & cohort LTV analytics • WhatsApp Business automation • Tabby / Tamara BNPL integrations • Creative production workflow (48-angle hook matrix)

EVIDENCE & VERIFICATION

A public 59-screenshot proof vault spans Meta Ads Manager (6), Google PPC (5), DTC purchases (5), lead generation (2), direct chat (7), YouTube/video (9), and viral reach (22). Three downloadable strategy decks (Google Ads Portfolio, Case Studies Vol. 1 & 2) are published on the portfolio site. Every metric above is empirically verified against dashboard screenshots.

LANGUAGES & AVAILABILITY

English (fluent) · Bengali (native) · Arabic — serving Gulf-market clients with localized creative. Available for high-ticket engagements: ad account teardown (10-minute private video audit), full-funnel architecture, or scaling retainers. 100% confidential client handling.

Built with Engineering Precision • All Metrics Empirically Verified
